HAVOG WROUGHT BY ARIZONA FLOODS

VERDE AND SALT RIVERS AT AN ALARMING STAGE.

VALLEY LANDS INUNDATED

Flow of 7.44 Feet Over Spillways of Rosevelt Dam-Power House Forced to Shut Down.

Phoenix, Ariz,-An apron below Roosevelt dam, which protects an electric power house, went out in the **Bood** that is sweeping the Salt river valley, according to reports received here. Five additional spans of the Agua Fria bridge, fifteen miles west of Phoenix, also went out, observers reported.

For the second time within the past twenty-four hours traffic over the South Central avenue bridge, just south of Phoenix, was discontinued. It is considered the longest concrete and coment bridge in the United States. Water was running several inches de p over both approaches, it was announced, and was rising at the rate seven inches an hour.

Heavy rains are reported in the mountainous region, which drains into the Salt. Verde and Tonto rivers.

The local amusement park was inundated and several structures were bending under the pressure of the high water.

Scores of reclamation employes and county officers are working diligently to keep the flood waters free of debris.

The Verde river, one of the two largest drain basins of the mountainous region east of Phoenix, and the valley, went up two feet this afternoon when the last reports were received. The Salt river, fed by the Roosevelt dam, was also reported rising, but not to such a marked extent.

At Roosevelt dam the water was 7.44 feet over the spillways and still rising. The power house, nearly four feet under water, has been shut down.

A portion of the valley lowlands are already inundated, but officials declared that all persons living in the flooded territory had been warned in ample time and were safe. Officials would venture no estimate of the dam-

During the day, the sheriff's office answered a half dozen summons for help. Two Japanses truck gardeners, stranded on an island in midstream of the Salt river, could be located after a party had fought its way to the island. Officers are now investigating

Two other men, also marooned on a flood-made Island, refused to leave their homes when the sheriff and his deputies rowed their way to the island to take them off.

FIRST CENSUS FIGURES PUBLIC

Washington, D. C.-The first population announcements for the 1920 census were issued by the census bureau and was as follows: Concinnati, 401,-158; an increase of 37,567, or 10.3 per cent. Washington, D. C., 437,414; an increase of 106,345, or 32.1 per cent over 1910. Cincinnati ranked as thirteenth city of the country in 1910 with 331.069. Census bureau estimates of Cincinnati's population July 1, 1917, tions, were 414,248, and Washington's or. that date, 369,282. In making the announcements Director Rogers stated the figures were preliminary and subwill be those certified to congress.

Martial Law to End.

Lexington, Ky.-Martial law instituted here following rioting Feb. 9, in which six persons were killed and many wounded in a mob's vain attempt to capture and lynch William Lockett, negro, will end. Lockett, who was convicted of the murder of 12-yearold Geneleve Hardman, is at Louisville prison, awaiting execution of the death sentence. A special grand began investigation of events leading up to the riot.

Call Sultan a Menace.

London.-Several of the London sewspapers displayed large advertisements beaded "menace to the peace of the world," appealing to the trade anionists and public generally to forward protests to members of the house of commons to use their influence "to prevent handing back Constantineple to the bloodstained rule of the Turks." This protest will be schoed in many of the Protestant and Catholic pulpits of the Kingdom.

Trace Poison Olives

Chicago-Federal food inspectors in afty-two towns of eight states are making frantic efforts to locate and destroy dozens of bottles of ripe olives containing the deadly bacillus botulinus as a result of deterioration. A single case of olive poisoning at Kalispell, Mont., which led to discovery of the danger, is the only one reported so far. Federal chemists who uncovered the widespread distribution of the poisoned fruit are bending every effort to reach and confiscate the

CONSTITUTIONAL CONVENTION NOTES

Lincoln.-The most important act of the convention the past week was the adoption of Proposal 326, one of the "innguage" proposals. The final vote came only after several amendments were rejected by so close a vote that friends of the bill became agitated for fear it would be defeated. The amendments, while not vital to the bill, gave opportunity for oratory. Only ten delegates voted againt the measure and they were Albert of Platte, Alder of Brown, Bryant of Cedar, Cornell of Cherry, Donohoe of Douglas, Eperson of Clay, Lahners of Thayer, Landgren of Fillmore, Thielen of Platte and Votava of Douglas, The proposal as adopted reads as follows: "The English is hereby declared to be the official language of this state, and all official proceedings, records and publications shall be in such language, and the common school branches shall be taught in said language in public, private, denominational and parochial

The convention opened this week's work by passing two proposals. One places rights of aliens in property under the jurisdiction of the legislature and leaves the rights of people of other states in property of this state the same as if they lived in the state. The other authorizes the state board of public funds to place all school lands for sale up at auction instead of under the appraisement plan. A strong fight was put up by Bryant and others to keep the school lands from being sold.

The constitutional convention in committee of the whole, adopted the legislative committees recommendation to raise the membership of the senate from 33 to 50. The house will remain as before, with 100 members. The proposition to divide counties with more than one representative into representative districts was defeated, while the present system of float districts will remain. A recommendation to raise the pay of the members from \$600 to \$800 for the session was adopted.

The committee on the executive department has recommended a proposal making only the governor, secretary of state, auditor, treasurer, attorney general and state superintendent the elective officers of the state, abolishing the office of lieutenant governor and giving the duties to the president of the senate, and making the land commissioner appointive.

The conventior has adopted Proposal No. 9, retaining the present senatorial and legislative districts until changed by law, and Proposal 71, providing that the compensation of any public official regulated by the legislature shall not be changed during the term for which that official is elected, nor compensation for contracts altered where the work has been completed.

By a vote of 56 to 34 the convention approved Proposal No. 96 by Ross of Merick county in amended form. It provides that private property cannot be taken for private use except for private ways of necessity, for drains, flumes, ditches or across lands of others for agricultural and sanitary pur-

A proposal for a provision giving the legislature power to create an industrial court to pass upon controversies between employers and employes "in a population of 363,591. Washington which the public welfare is affected," ranked sixteenth with a population of was presented to the convention, by the committee on industrial condi-

The convention, by a vote of 26 to 32, rejected an amendment requiring election of state legislators by districts ject to correction. The final figures in Douglas and Lancaster countles, A provision opposing division of smaller countles into districts carried, 38 to 17.

> Without a roll call the convention approved No. 322, a proposal by the committee on education changing the constitution so that the regents of the university shall be elected by districts instead of at large.

In spite of a great deal of opposition by lawyer delegates the convention went on record in favor of requiring a decision by five supreme court jury was impaneled and immediately judges before any law may be de-

clared unconstitutional. Proposal No. 323, Pugsley's pet amendment, requiring the legislature to provide legislation for a state school tax, struck a snag last week and went into the indefinitely postponed hopper.

Proposal No. 233 by Osborne of Morrill, one of the minister delegates, which provides for the reading of the Bible in public schools, was rejected by the convention by a vote of 48 to 34.

The convention has approved a proposal to turn in fees received by the department of fish and game into that department instead of into the school funds.

The convention indefinitely post poned Proposal No. 246, by McLaughlin of Douglas, introduced at the request of the Omaha Chamber of Commerce, to permit the levy of taxes for the purpose of city publicity.

Half a million dollars is the limit to which the state can go into debt. as reported out by the committee on publie indebtedness. This raises the limit from \$100,000 and will probably stop attempts made by some members to ruise the limit of indebtedness much above that figure

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with urle acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.-Adv.

Mean But True. "That was a nasty thing the cook said to me before leaving."

"What was it?" "Just as she was leaving the house she turned back in a rage and said: "Well, I've got it on your busband anyhow. I don't have to stay here."

CONVENIENT!

If Constipated, Bilious or Headachy, take "Cascarets."

Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or harsh Pills. Feel bully! Be efficient! Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest laxative-cathartic enced? They work while you sleep. Adv.

Sampling the Cellar Stock. "Has Bill changed much since he got

out of the army?" "Not much. He still spends a great deal of his time in a dugout."-The Home Sector.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How to Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more duliness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head: soothe and heal the swollen, inflamed mucous membrane, and rellef comes

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.-Adv.
